Indian school system is as vibrant and dynamic as is Indian Society. Both, Indian society (and hence) the Indian school system are full of strengths and challenges the essence of which is diversity. Coming together with diverse background is part of our growing up and our functioning in the society as adults. Diversities related to learning styles, multiple intelligences, personality profiles or study habits are a few of the factors yet to take their due place in classroom activities. Similarly diversities of abilities and hence of the related educational needs, too are waiting to be addressed properly in Indian classrooms.

The current curriculum B.Ed. Special Education is revisited to empower the special teachers/educators to ensure education of students of with disabilities in an inclusive, right-based and barrier free environment. It is in tune with the reforms in Indian education and teacher education system in general such as UNCRPD (2007), Draft RPWD Bill (2014), NCTE Notification of November 2014. It intends to place teacher education preparation in special education in the context of the larger picture. SCOPE

The National Policy on Education 1986, which states (1) children with mild disabilities will be in regular schools, (2) children with severe disabilities will be in special schools, (3) vocationalization of education should be considered in school level, (4) teacher training programmes should be re-oriented to include children with special needs and (5) voluntary efforts must be encouraged. This being the case, the above programme will prepare teacher who can work effectively as resource room teachers in regular school and will have the competencies to teach children with all disabilities.

Further, the experience shows that the regular schools have been reluctant in starting resource rooms because of lack of trained manpower. This may also help in having a wider scope of employment of the special education teacher in the regular educational setting to act as a resource teacher. The course content includes organization and administration skills, thus preparing them to be in the position of Incharge of special schools. The curriculum also covers pre-vocational areas and involvement in community, thus preparing the teacher to plan for total educational programming for persons with mental retardation in the school going age.
